

Saskatchewan Early Learning and Care Leaders' Caucus

A Canadian Child Care Federation Committee

A PROPOSED VISION FOR CHILD CARE

A Saskatchewan where every child and their family can access high-quality, inclusive and affordable early learning and child care that matches their unique needs.

Join us on the journey!

THE ROADMAP

The Canadian Child Care Federation - Saskatchewan Early Learning and Care Leaders' Caucus, Saskatchewan Early Childhood Association, Muttart Foundation and Child Care Now (SK) worked with stakeholders from across the province to develop a made-in Saskatchewan Roadmap.

This document was created to help governments, service providers, stakeholders and communities begin the important work of building an early learning and child care system for Saskatchewan.

The Roadmap is organized into four interwoven sections:

-  Ideas and vision
-  Public policy, planning and management
-  Financing
-  Workforce development and support

SYSTEM BUILDING

Saskatchewan requires a vision and goals for quality early learning and child care, paired with a well-crafted workforce strategy.

Recognizing the vital role of well-educated and supported early childhood educators (ECEs) as the driving force for quality, inclusive child care and improved child outcomes is crucial.

Explore policies outlined in the Roadmap aimed at empowering and enhancing the vital roles of ECEs. Imagine a future where ECEs have non-contact time for planning, learning and nurturing relationships. A future where their compensation reflects their knowledge, role and experience, including sick and vacation days, benefits and pension provisions.

This transformative journey aims to create a modern and innovative child care system, fostering growth, excellence and boundless opportunities for children, parents and educators in Saskatchewan.

Join us on the journey. Follow the Roadmap!
