

Co-Creating a Comprehensive Early Learning and Child Care System

Work that we've done:

Alberta needs a comprehensive quality strategy to ensure all children receive quality care

developing a definition of quality, and defining what this looks like across the field.

Alberta needs a comprehensive inclusion strategy to ensure all children are well-supported and welcomed in care.

checking your blind spots to ensure you're looking at inclusion from a wider lens

build inclusive supports into the system.

if it stops working, everything stops working.

Alberta needs a comprehensive quality strategy to ensure all children receive quality care.

ELCC is not a luxury, or a lottery, it's a **RIGHT**.

All children deserve to be invited into positive early learning spaces.

Quality, Inclusion, Affordability & Accessibility need to not be viewed as separate qualities, but **UNITED** as a **STRONG, SUSTAINABLE & RESPONSIVE** ELCC model.

it's important to amplify our asks as a **COLLECTIVE CHILDCARE** ask.

FIRESIDE CHAT

What are we building together?

we need to leverage work in the right way

Stronger collaboration helps create momentum.
